

Saving your artwork with correct pdf setting

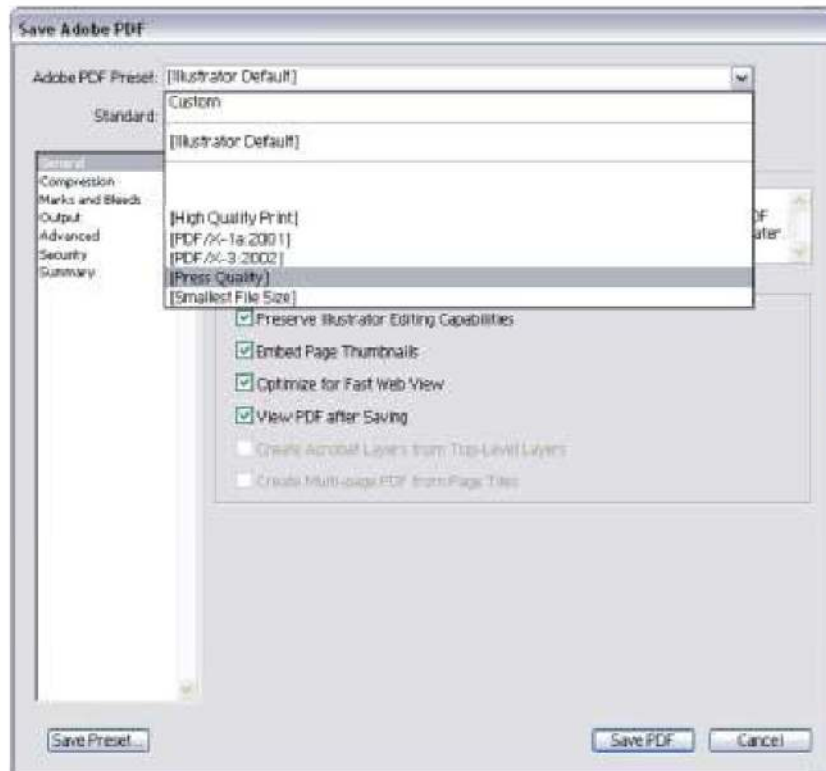

1. Save your artwork by go to File > Save As

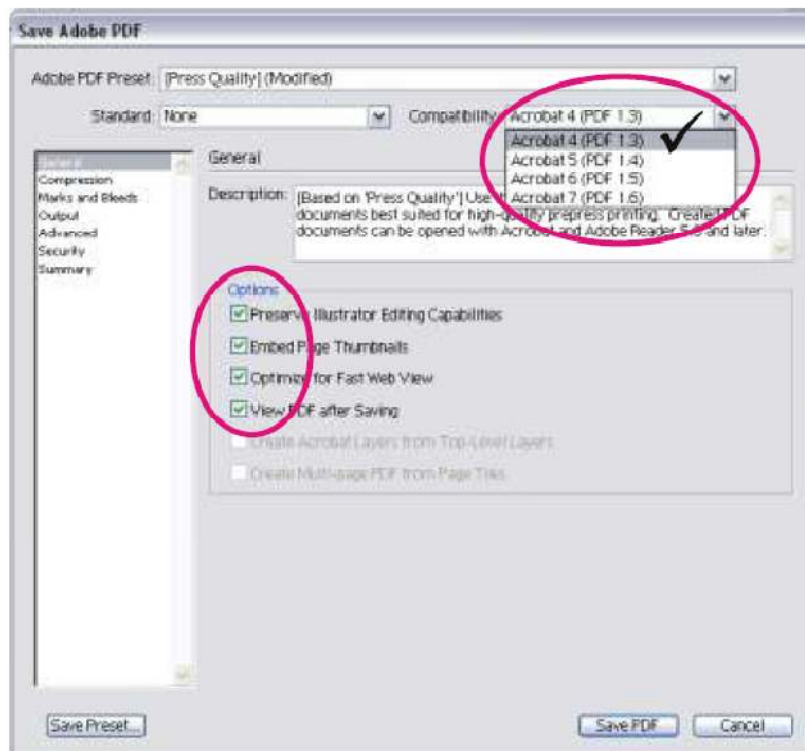

2. In Save As window, Select Adobe PDF file type.

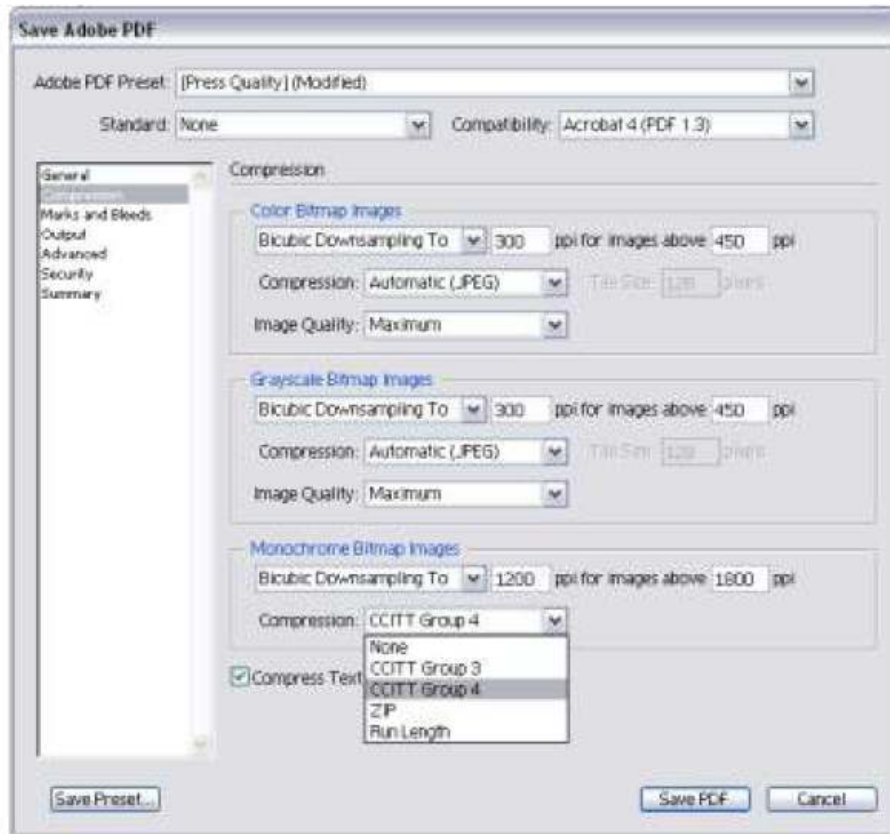

3. In Adobe Pdf Preset, select Press Quality.

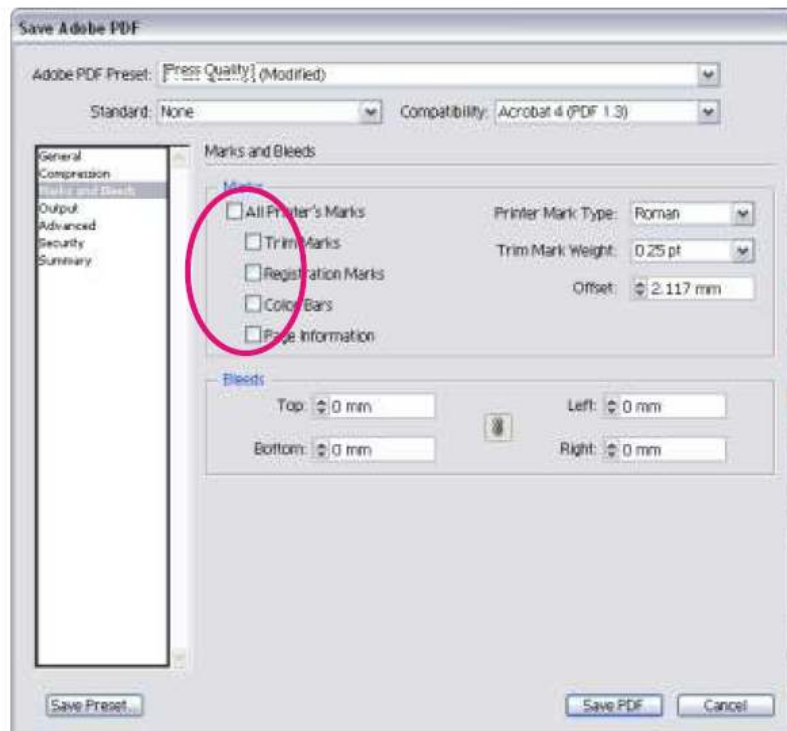

4. In general tab, choose Acrobat 4 (Pdf 1.3) and tick all Options

5. In Compression tab, select CCITT group 4

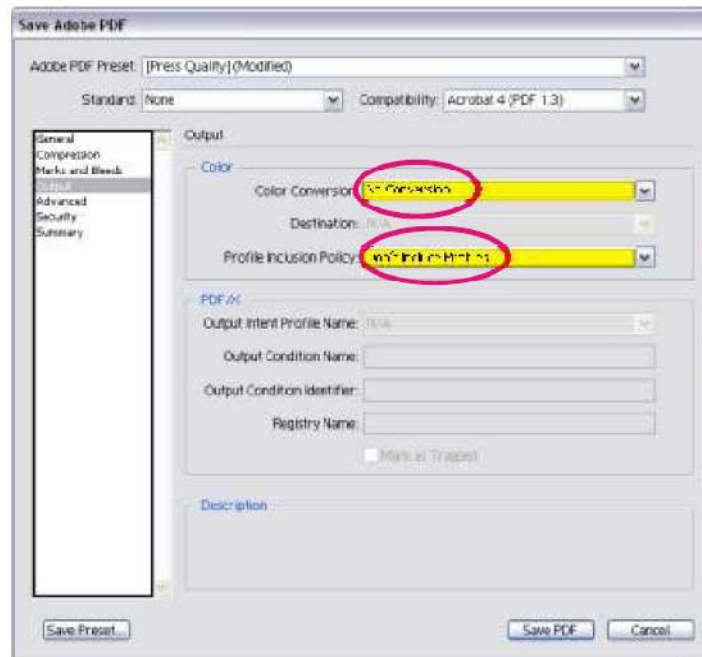

6. In Mark and bleed Tabs, deselect all option to disable printer mark and bleed

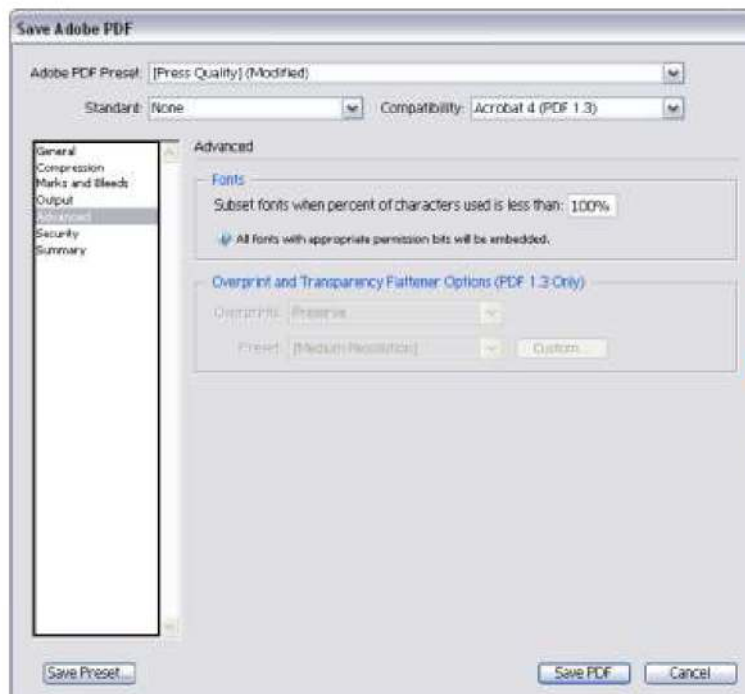

One Malaysia Printing!

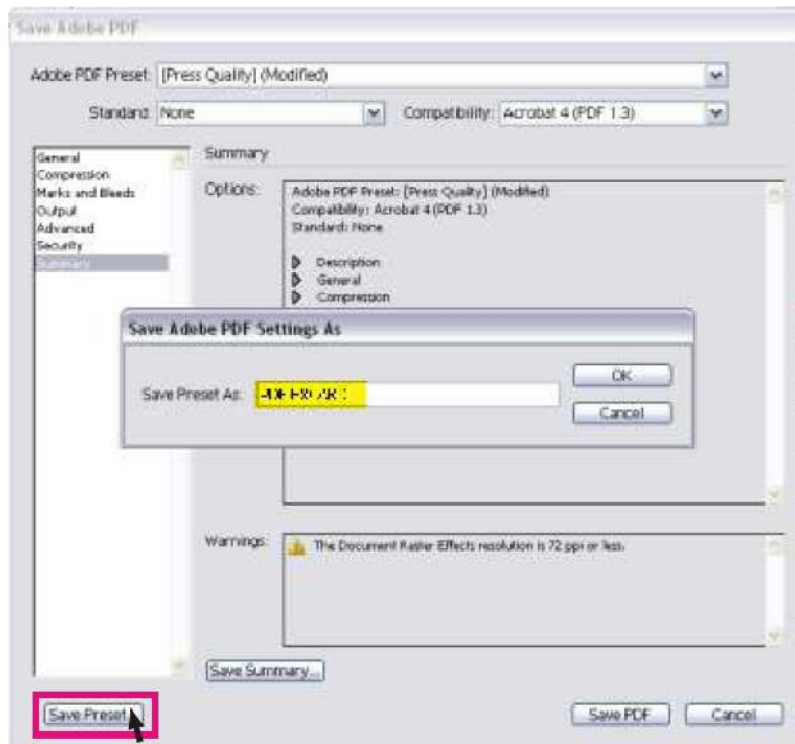

7. In output tab, select [No color conversion] in color conversion drop down box and select [Don't Include Profile] in Profile inclusion Policy in the drop down box.

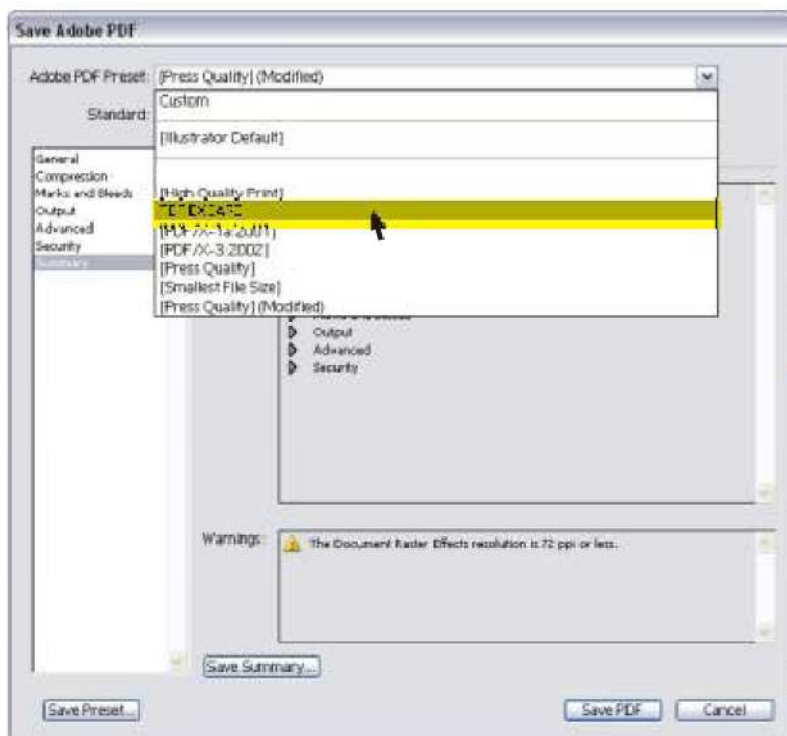

8. In advance tab, select [High Resolution] in Preset dropdown box. (note: For CS2, select [Medium Resolution])

9. Click save preset, and save it as “1malaysiaprinting”.

10. After saving it, the preset will be displayed in Adobe PDF Preset. Always choose “1malaysiaprinting” when saving your pdf file.
